Work Experience

Mar 2026 - Present

SDET Automation Test Engineer

Hiringhood

- Worked as an SDET involved in Manual and Automation Testing for modern web applications in Agile environments.
- Developed and maintained automation test scripts using Playwright with TypeScript, improving test coverage and execution efficiency.
- Used MCP Browser for debugging and troubleshooting automation test failures effectively.
- Worked with Node.js, VS Code, and terminal-based workflows for test execution and framework maintenance.
- Performed Functional, Regression, Smoke, API, Security, and Performance Testing using tools like Postman and k6.
- Used GitHub for version control, Zoho for defect

Key skills

- page object model
- Zoho
- Github
- Agile Methodology
- Playwright Automation
- TypeScript
- Claude Code
- Model Context Protocol (MCP)
- Selenium Webdriver
- Core Java Programming
- Manual Testing
- Automation Testing
- Visual Studio
- JIRA
- Smoke Testing
- Sanity Testing
- Regression Testing
- Bug Reporting
